Celebrate this International Yoga Day with California Almonds, a Natural Source of Protein

International Yoga Day, observed every year on June 21st, celebrates the holistic benefits of yoga in enhancing physical, mental, and spiritual well-being. While practicing yoga offers immense health advantages, complementing it with a balanced diet is essential for optimal results. A healthy diet should include a variety of nutrients like carbohydrates, proteins, vitamins, minerals and so on. Protein is a vital nutrient and among natural sources of protein, almonds stand out as a convenient and nutritious choice. Whether you're holding long asanas or transitioning through challenging sequences, ade-quate protein intake helps sustain physical performance and supports muscle recovery post-session. Including almonds in your daily routine can be a simple yet effective way to fuel your yo-

ga journey.
Almonds, the king of nuts, are a powerhouse of nutrition, packed with 15 essential nutrients and offering a wide range of health benefits. A recently published studyby Dr. Mark Kernshowed

that regularly eating almonds may aid faster recovery after exercise by reducing muscle damage. Another study by Dr. Oliver Witardhighlighted almonds as an effective pre-workout snack, which helps reduce muscle soreness and im prove muscle performance. This makes almonds a perfect companion to your exercise and yoga routine, nourishing yourbody for improved performance and overall well-being.

Incorporating almonds into a daily diet can provide various health benefits, including lowering LDL (bad) cholesterol, supporting blood sugar control, promoting healthier skin, and aiding in effective weight management.

Amway India strengthens its immunity portfolio; launches Nutrilite Triple Protect

Introduces Nutrilite Triple Protect – a scientifically developed, plant-based formula made with three powerful natural ingredients: Acerola Cherry, Turmeric, and Licorice to support immunity, skin health and gut

New Delhi: With rising lifestyle diseases and growing health awareness, India is seeing a clear shift toward proactive healthcare. Aligning with the evolving consumer need, Amway India, a leading company supporting health and wellbeing, strengthened its nutrition category offering with Nutrilite Triple Protect. A scientifically formulated, plant-based supplement powered by the natural strength of Acerola Cherry, Turmeric, and Licorice. This potent formulation has nutrients that offer triple-action benefitssupporting immunity, reducing inflammation, and providing strong antioxidant protection for the gut, skin, and immune health.

Commenting on the launch, Rajneesh Chopra, Managing Director, Amway India, stated, "As poor nutrition continues to impact over half the nation's health, the need for clean, plant-based solutions for overall wellbeing has never been greater. Today's consumers are prioritizing health like never before, with 52% ranking immunity as the top benefit they seek in supplements - underscoring a growing demand for holistic wellness recommendations. Keeping in mind the consumer needs and as part of our strategic business priority of Accelerating Product Innovation Pipeline, we are happy to introduce our latest innovation - Nutrilite

Triple Protect by Amway. This one-of-a-kind formulation brings together science-backed ingredients to support immunity, gut and skin-empowering individuals to take

proactive, holistic approach to wellness. With a health-first approach, we at Amway are committed to empowering individuals to take control of their health and wellbeing and focus on enhancing their healthspanliving not just longer, but healthier lives.' Nutrilite Triple Protect embodies the phi-

losophy of sustainable, plant-based, and evidence-backed nutrition. Each serving delivers 100% of the Recommended Daily Allowance (RDA) of Vitamin C, ensuring support for immune health.

The formulation includes Acerola Cherry extract—sustainably sourced from certified organic farms in Ŭbajara, Brazil—which contains nearly seven times more Vitamin C than Amla. It also includes 40mg of Turmeric Extract (equivalent to 50 times raw turmeric) and 167mg of Licorice Extract (equivalent to six times raw licorice), both sourced from certified organic farms, contributing to its powerful anti-inflammatory and antioxidant benefits. Made without artificial colors, flavors, or preservatives, this thoughtfully combined formulation has ingredients that support immune, gut, and

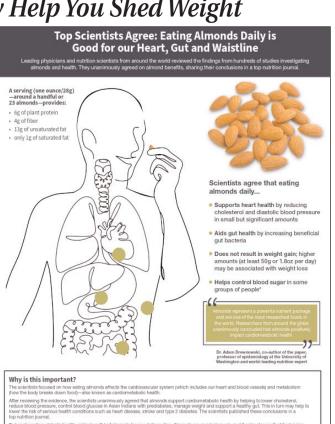

Talking about the power-packed formulation, Amrita Asrani, Chief Marketing Officer, Amway India, said, "Nutrilite Triple Protect is a testament to Amway India's ongoing commitment to advancing holistic well-being. Packed with Acerola Cherry, Turmeric, and Licorice, this powerful trio has nutrients that come together to support overall

Busting the Myth: Almonds Don't Cause Weight Gain—They May Help You Shed Weight

A common misconception is that almonds contribute to weight gain. However, a new consensus paper supported by the Almond Board of California dispels this myth.

The research found that incorporating at least 50g (about 1.8 oz.) of almonds daily as part of a balanced diet did not lead to weight gain—in fact, it was linked to modest weight loss in some individuals.

Thanks to their protein, fiber, and healthy fats, almonds can help increase satiety and may reduce overall calorie intake, making them a valuable addition to healthy weight management strategies when consumed as part of a wellrounded diet.

KBC Global Ltd to Establish Wholly Owned Subsidiary - Dharan Infra Solar Private Limited

energy and renewable power segment, reinforcing company's strategic growth in clean energy Mumbai: Nashik based KBC

Global Ltd (BSE: 541161, NSE: KBCGLOBAL), a leading name in infrastructure and EPC services, has announced the incorporation of a new wholly owned subsidiary, Dharan Infra Solar Private Limited, as part of its expansion into the renewable energy sector.

The Board of Directors approved the move at its meeting held on June 13, 2025. The new company will focus on solar and hybrid energy solutions, aligning with company's commitment to sustainability and green technology, with 100% ownership to remain with Dharan Infra-EPC Lim-

Dharan Infra Solar Private Limited will engage in a wide spectrum of activities including the manufacturing, design, development, improvement of renewable energy modules, cells, and acces-

This includes conducting research, trading, buying, selling,

wholesaling, retailing, distributing, importing, exporting, assemfabricating, maintaining, altering, and operating solar power projects and hybrid systems that combine solar photovoltaic technology with other forms of renewable energy aiming to provide end-to-end solutions for solar power projects.

Management of the company id, "The formation of Dharan Infra Solar is a natural progression in our diversification jour-

Renewable energy is no longer an option but a necessity. This initiative reinforces our long-term vision to contribute to a cleaner, greener future while opening new avenues for sustainable business subsidiary marks a significant milestone in Dharan Infra-EPC's strategy to become a comprehensive player in the infrastructure and clean energy domain. It also comes at a time when India is accelerating its transition toward renewable energy, creating significant market opportunities.

is rebranding The company from KBC Global Ltd to Dharan Infra-EPC Limited as part of a strategic shift to focus on infrastructure and EPC (Engineering, Procurement & Construction) projects and reposition its brand in the market.

In February 2024, the board of directors approved to issue 1:1 bonus shares to shareholders with order book size of Rd 260 crores.

KBC Global Ltd is a prominent player in India's infrastructure and construction sector with a growing portfolio in engineering, procurement, and construction (EPC) services. With a history of delivering high-quality infrastructure projects, the company is now strengthening its presence in the renewable energy segment.
