

# Indian satellite startup ready to ship its first multi imaging satellite to US for launch

Chennai, (UNI)

Indian space startup GalaxEye Space Solutions Private Ltd's satellite is ready to be shipped to the US for its launch by SpaceX's rocket.

"World's First OptoSAR Satellite & India's largest Privately Built Satellite is on its way to the launchpad," said Suyash Singh, CEO.

Weighing about 160-170kg, this is the first of the 10 Drishti satellite constellation. It is slated to be orbited by a SpaceX rocket, Pranit Mehta, Co-Founder had said earlier.

The company plans to have its constellation in the next four years.

"For 4.5 years, we lived in the gap between a 'world's first' vision and a thousand 'it's not possible' warnings.

Building deep-tech IP led startup with limited funds isn't just a challenge; it's a daily war against gravity and doubt. We were questioned at every turn. Every milestone was met with a "why?" or a "how?" or a "someone would have done it already if it were possible." There were days when the weight of being first felt like it might break us. But we

stayed. We fought. And we built it. Today, as I look at our satellite—tested, finished, and ready to ship—the emotion is hard to put into words. It's more than hardware; it's 1,642 days of pure grit and unshakable belief. To the team @GalaxEye that bled for this: we did the impossible. To the skeptics: thank you for the fuel. To the investors, users and

our supporters: cant be more thankful The satellite is ready. And we are just getting started," Singh said on X.com.

According to Singh, the company's satellite is the first one in the world to have multi-sensor imaging satellite fusing all-time synthetic aperture radar (SAR) with high-resolution optical data on a single platform.

This delivers uninterrupted, all-weather visibility anytime, anywhere. Make faster, smarter decisions with unprecedented clarity, the company said.

These indigenously built satellites will enable governments, defense, and industries to perform advanced state-of-the-art geospatial analyses.

# Chandrasekaran says Iran conflict has no direct impact on Tata Group

Jamshedpur, (UNI)

Tata Group Chairman N Chandrasekaran on Tuesday said the ongoing Iran conflict has had no direct impact on the Tata Group or India so far, though prolonged instability in West Asia could create challenges.

He was speaking after attending the 187th birth anniversary programme of Jamsetji Nusserwanji Tata in Jamshedpur.

Chandrasekaran said the group imports limestone from the Middle East and operates across several geographies. Any extended disruption, he noted, could affect supply chains, logistics, delivery schedules and long term sustainability.

His remarks reflect a broader corporate mood of caution, as Indian conglomerates assess exposure to geopolitical volatility without indicating immediate concern.

The commemorative ceremony at Tata Steel premises was attended by Tata Trusts Chairman Noel Tata and Tata Steel Managing Director

and CEO T V Narendran, among other senior officials.

Floral tributes were paid to Jamsetji's statue within the plant and later at Postal Park in Bisputpur.

Referring to employment, Chandrasekaran said the group's workforce has grown from about five to six lakh over the past five to six years to nearly eleven lakh at present. The target is to reach fifteen lakh employees by 2030.

He added that efforts are under way to raise women's participation in the workforce to 28 to 30 per cent.

The expansion plans come at a time when automation and Artificial Intelligence have sparked debate over job security across sectors.

Addressing such concerns, he said apprehensions about job losses are natural with the arrival of new technologies. However, Artificial Intelligence is expected to create new opportunities in steel, automobiles and finance.

# Tata Motors Passenger Vehicles Ltd. registered total sales of 63,331 units in February 2026

Mumbai: Tata Motors Passenger Vehicles Ltd. sales in the domestic & international market for February 2026 stood at 63,331 units, compared to 46,811 units during February 2025, up 35% YoY. About Tata Motors Passenger Vehicles Ltd. (Formerly Tata Motors Ltd): Part of the USD 180 billion Tata Group, Tata Motors Passenger Vehicles Ltd. ('the Company', BSE: Scrip code 500570; NSE: Scrip code TMPV) is one of India's leading automobile manufacturers, offering a diverse portfolio of cars and SUVs renowned for their design, safety, and performance. The company delivers multi powertrain options, advanced connected technologies, and intelligent personal mobility solutions. Known for its innovation, reliability, and engineering prowess, the company is at the forefront of India's electric vehicle revolution, accelerating the nation's shift toward sustainable mobility. It continues to drive progress across zero emission, connected, and future ready mobility solutions, supported by robust design and R&D capabilities.

# Amazon announces Zero Referral fees on over 12.5 crore products: Sellers to save up to 70% in fees

Amazon India today announced a landmark fee reduction aimed at accelerating growth for lakhs of sellers across the country. Building on last year's fee revision, the company has expanded zero referral fees coverage more than 10x from 1.2 crore products in 2025 to over 12.5 crore products priced under Rs1,000 across 1,800+ categories. In addition, Amazon has reduced Easy Ship fees by over 20% for products priced below Rs300. Easy Ship allows sellers to store products at their own premises while Amazon handles pickup and delivery, making it a preferred choice for sellers starting or scaling their e-commerce journey due to its lower upfront logistics costs. Sellers shipping multiple units in a single box can also see savings of up to 90%+ on selling fees for the second unit, further improving overall savings. The revised fees come into effect from March 16, 2026. Amit Nanda, Director, Selling Partner Services, Amazon India, said: "Building on the strong impact of last year's fee reductions, we are now expanding that commitment to benefit a much larger cohort of sell-

ers. This move is designed to make selling on Amazon.in more lucrative and simpler particularly for small businesses and entrepreneurs in Tier 2 and Tier 3 cities. By eliminating referral fees across 1,800+ categories covering over 12.5 crore products, and reducing logistics costs, sellers can save up to 70% in fees. Together, these changes reflect Amazon's continued effort to pass operational efficiencies back to sellers and customers.

Speaking about the goodness of the fee changes last year, Ritesh Bajaj, Founder, Tulsii and a seller on Amazon.in said "The referral fee waiver by Amazon on products

priced below Rs.300 gave us much-needed breathing room and allowed us to successfully sell low-ticket items on the marketplace, a segment where we previously struggled, resulting into 1.5X business growth. A true example of seller backward decision from Amazon."

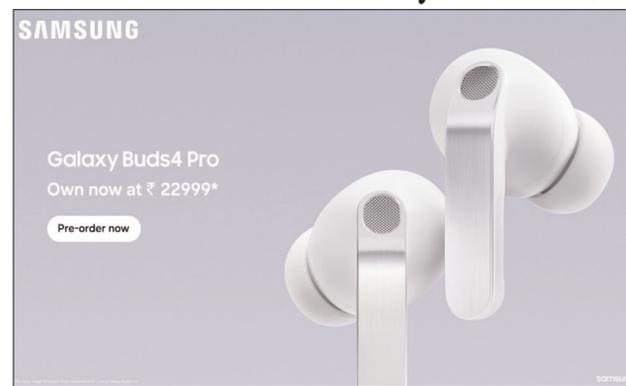

Sellers on Amazon.in can choose from three fulfillment options: ship orders directly to customers themselves; use Easy Ship (ES), where they store products at their premises and Amazon handles pickup and delivery; or opt for Fulfilled by Amazon (FBA/FC), where Amazon manages storage, packing, and shipping on their behalf.

# Samsung India Launches its Most Advanced Galaxy Buds4 Pro; Pre-order Begins Today

GURUGRAM: Samsung, India's largest consumer electronics brand, announced that its Galaxy Buds4 Pro and Galaxy Buds4 that redefine superior hi-fi audio and everyday wearability is available for pre-order, starting today. The Galaxy Buds4 series pairs exceptional sound quality with a computationally designed fit. For the first time, Buds4 Pro features a wider woofer, with enhanced Active Noise Cancellation (ANC) and an enhanced Adaptive Equalizer (EQ) for sound true to the original recording. Deeper AI integration further underscore Samsung's commitment to earbuds designed for how people listen, move, and live throughout the day.

Computational Design Optimised for Enhanced Stability and All-Day Comfort

With the Buds4 series, Samsung unveils the new Buds blade design, a computational achievement based on millions of global ear data points and over 10,000 simulations. The Buds4 series features an ultra-sleek, ergonomic fit to deliver a more comfortable experience. The new stabilised blade boasts a premium metal finish and an engraved pinch control area to help users locate and adjust set-

tings. The new transparent clamshell-type cradle makes storage and charging convenient, while the blade design delivers a stylish, high-quality listening experience.

Galaxy Buds4 Pro and Buds4 offer distinct design architectures. The Galaxy Buds4 Pro features a canal-fit design for ultimate sound with maximum functionality. The open-fit design of Galaxy Buds4 delivers a comfortable, user-friendly audio experience. The Galaxy Buds4 Pro and Buds4 are

available in White and Black with a matte finish, as well as an online-exclusive Pink Gold for Buds4 Pro.

Superior Hi-Fi Sound with Innovative Hardware Updates

Galaxy Buds4 Pro boasts a frequency response of 20Hz to 40,000Hz (40kHz), indicating its ability to produce deep bass and high treble for a more detailed, full-bodied sound.

Larger speakers offer better sound quality, and Buds4 Pro introduces a new wider woofer. Its maximised vibration area and

minimised edge, increases the effective speaker area by almost 20% compared to the previous generation. Combined with the tweeter, it delivers natural, immersive audio with clean bass and rich treble that supports 24-bit/96kHz audio, true to the original recording.

These hardware enhancements capture everything from the high, resonant sounds of violins to the deep pulses of double basses. Also, the outer microphone is placed on the upper side of the metal finish to maximise Active Noise Cancellation while minimising feedback from wind and other external factors.

Maximized Audio Experiences with Enhanced Adaptive EQ and ANC, The Enhanced ANC on the Galaxy Buds4 series can tune out everyday background noise to ensure an immersive audio experience that adapts to changing environments. For example, when commuting on a bus, train or airplane, Buds4's enhanced Active Noise Cancellation reduces low-frequency engine noise while maintaining rich, balanced sound, allowing users to focus on music, podcasts or calls without distraction.

# Femina Miss India Runners-Up Explore Shivrajpur's Coastal Charm, Envision a Vibrant Future by the Sea

Mumbai: Grace met the waves at Shivrajpur Beach as Femina Miss India 2023 1st Runner Up Shreya Poonja and 2024 1st Runner Up Rekha Panday immersed themselves in Gujarat's celebrated Blue Flag shoreline.

Situated close to Dwarka, the beach offers a harmonious blend of serenity and thrill. Its calm seabed makes it ideal for safe water activities, while designated zones ensure that adventure sports like jet skiing and scuba diving operate within structured guidelines.

The uncluttered landscape and sweeping Arabian Sea views enhance its visual charm, attracting tourists and filmmakers alike.

Rekha Panday shared her excitement, saying, "The openness of Shivrajpur is what truly stands out. There's adventure, but also order and care. It's the kind of place where you'd want to gather friends for a sunset concert or simply unwind by the water." Beyond leisure, Shivrajpur's location strengthens its tourism circuit. With Beyt Dwarka nearby and the culturally vibrant Madhavpur within

reach, travellers can combine spirituality and seaside relaxation in a single journey. The connectivity boost provided by Sudarshan Setu has made the region even more visitor-friendly.

Reflecting on the experience, Shreya Poonja said, "It's inspiring to witness a beach space that is clean, expansive, and clearly built with long-term vision."

Bathed in twilight hues, Shivrajpur Beach represents Gujarat's forward-thinking coastal narrative - a destination grounded in sustainability and ready to emerge as a vibrant cultural hotspot.

# IVF cost calculator: What to expect at different ages and diagnoses

When most couples start considering IVF, their first question isn't about the lab work or hormone shots - it's "How much is this really going to cost us?"

Here's the reality: there's no flat fee for IVF. Two people can show up at the same clinic on the same day and leave with very different plans and bills. The price tag depends mainly on factors like age, ovarian reserve, and the underlying reason for seeking fertility treatment, says Dr Sonal Chouksey, Fertility Specialist at Birla Fertility & IVF, Bhopal.

Understanding these details early on makes planning a lot less stressful, both for your emotions and your bank account.

How age shifts the equation - for your body and your budget, Fertility doesn't just suddenly disappear, but it does start to decline after 35, and that downward slope gets even steeper beyond 38. This isn't just a theory - it's reflected in the statistics.

According to the Human Fertilisation and Embryology Authority, women under 35 have about a 32% live birth rate per IVF cycle. By ages 38 or 39, that rate drops to around 25%. For women over 40, it's less than 15%.

What does this mean in practice? Younger women are more likely to get pregnant within

one or two rounds. Women in their early forties may need several cycles or even donor eggs. Each extra round adds to the total cost.

So, when you're budgeting, it's less about the price of a single cycle and more about realistically estimating how many cycles you'll need.

Guidelines from European Society of Human Reproduction and Embryology also suggest that tailored protocols improve outcomes.

What does that 'package price' really cover? IVF pricing isn't simple - it all comes down to probability. Younger patients generally spend less overall because they reach success sooner. If you're older or facing a tricky diagnosis, expect the process and the expenses to stretch out.

The most important thing? Have a frank, individualised conversation with your clinic before starting.

When you truly understand your medical situation and what to expect, you can make a plan, sidestep unpleasant surprises, and move ahead with more confidence.

IVF isn't just a medical journey - it's emotional and financial, too. The more clarity you have from the outset, the less daunting the process becomes and the more empowered you'll feel.

# 48th Annual General Meeting of Bank of India held

48th Annual General Meeting of Bank of India Officers Association concluded in Bhopal, participation of more than 1,200 officers Bhopal. The Madhya Pradesh and Chhattisgarh unit of Bank of India Officers Association organised the 48th Annual General Meeting in Bhopal in a grand manner. More than 1,200 working officers from various areas of Madhya Pradesh and Chhattisgarh participated enthusiastically in this important meeting.

# Dabur Real Redefines the Spirit of Holi Celebration with 'Real wale rang sab pe chadh jaaye' Campaign

Dabur India Limited, the leader in the packaged fruit juice category, announced the launch of its vibrant festive campaign, "Real wale rang sab pe chadh jaaye." Positioning Real Fruit Power as the ultimate hydration and energy companion, the campaign celebrates the uninhibited, raw joy of India's most colorful festival.

The "Real wale rang sab pe chadh jaaye" initiative encourages people to shed their inhibitions and embrace the "Rangbaaz" spirit—playing with their whole hearts while staying fueled by the natural goodness of fruit nutrition. At the heart of the campaign is a high-energy musical film that captures the soul of a modern Indian Holi: a seamless blend of tradition, spontaneous dance, and the authentic bonds of friendship.

"Holi is more than just colors; it's an explosion of energy and emotions. With 'Real wale rang sab pe chadh jaaye,' we want to remind our consumers that the best way to enjoy the festival is to be your authentic self. Real Fruit Power provides the essential nutrition and hydration needed to keep that energy high, from the first splash of color to the last dance beat." Mayank Kumar, Vice President - Marketing, Dabur India Ltd. said.

The campaign moves beyond the curated "Instagrammable" moments to celebrate the beautiful mess of the festival.

As families gear up for large-scale celebrations, Dabur Real's range of fruit juices serves as the perfect host for guests and a constant source of refreshment for revelers.

"Our campaign film captures the essence of a 'No Filter' Holi. We believe that when you are fueled by the goodness of fruit, you have the stamina to go 'full-on rangbaaz.'

We are proud to be the trusted partner for millions of Indian households, ensuring that their festive spirit remains undiluted and their health remains a priority." Ms. Monisha Prasher, G.M. Marketing - Foods, Dabur India Ltd said.
